Work Experience

Great Vital Sdn. Bhd., Machang, Kelantan

Sales Auditor Part-Time

May 2022 – Aug 2022

- Developed a desktop application that provides supplier's data and can generate the report within 1 month in a solo project
- Spearheaded comprehensive inspections of gas pump stations, documenting sales transactions, oil quantities, sale prices, and income earned; leveraged data-driven insights to inform strategic decision-making, resulting in a 20% reduction in operational costs and a 10% increase in revenue

Me12pay Digital Sdn. Bhd., Shah Alam, Selangor

IT Intern

Nov 2021 – Apr 2022

- Collaborated with IT practical teams to develop and optimize Android online shopping applications through end-to-end programming, software design, testing, and troubleshooting processes within 5 months in an agile team of 3
- Applied efficient record repair, data recovery, and password recovery processes, resulting in significant successful recovery of data and password restoration efforts in 3 days

Scrap Computer Trading Sdn. Bhd., Shah Alam, Selangor

IT Technician Intern

Mar 2019 – Jun 2019

- Inspected and set up around 130 computers, and 50 computer peripherals in 3 months for customers and staff by installing Windows, drivers, and essential software

University Projects

Advanced Medicine Halal Verification Application

Oct 2020 – Jun 2021

- Developed and launched a highly functional medicine halal verification Android application within 9 months independently, leveraging Java, Firebase, and MySQL
- Enabled users to easily detect halal medicine, access registration status, and report any issues, fostering a safer and more transparent healthcare environment

Face Mask Detection and Alert Message System

Apr 2021 – May 2021

- Designed and implemented a face mask detection desktop application in a 4-person team using Python

Class Attendance Using Face Recognition System

Sep 2019 – Dec 2019

- Successfully designed and executed a class attendance system as an individual project, utilizing Java and MySQL
- Received a distinguished Merit Award at the MSU Idea Regeneration Exposition 2019 (iRex 2019) for the final year project, demonstrating outstanding innovation, and technical proficiency
